**AWS Tools:** Lambda, API Gateway, Event Bridge, S3, SQS, SES, EC2, ECS, IAM, Step Functions, Route 53

## PROJECTS

### AmpSkate | *TypeScript, React, Next.js, Postgres, Docker, AWS ECS, Terraform*

Dec. 2021 - June 2023

- AmpSkate is a web application designed to foster community, provide information and teach people how to learn longboard dancing, downhill or freestyle. Led the development of the website, API and CMS by providing estimates, timelines and scopes as well as implementation of those features. Worked asynchronously with a team of people from Los Angeles and Italy. Instagram: [ampskate](#)

### React RPG | *JavaScript, React, React Native, Redux, HTML/CSS*

Sep. 2018 – May 2019

- Sample text with *Emphasis!*

## LEADERSHIP EXPERIENCE

### SunSesh AZ

*Founder and Organizer*

Feb. 2021 - Present

Tempe, AZ

- SunSesh AZ is a weekly longboard dancing meetup that I founded in Tempe, Az. We host all sorts of longboard events and push each other to land that next big trick! Instagram: [sunsesh\\_az](#)

### SAVG Thread

*Founder and Designer*

June 2017 - Aug. 2018

Tempe, AZ

- SAVG Thread is a clothing brand that I launched out of my house by collaborating with other local entrepreneurs. It served as a creative outlet that allowed me to experiment with product/graphic design, manufacturing, photography and marketing. Instagram: [savgthread](#)
