PROJECTS

AmpSkate | *TypeScript, React, Next.js, Postgres, Docker, AWS ECS, Terraform* Dec. 2021 - June 2023
- AmpSkate is a web application designed to foster community, provide information and teach people how to learn longboard dancing, downhill or freestyle. Led the development of the website, API and CMS by prodiving estimates, timelines and scopes as well as implementation of those features. Worked asynchronously with a team of people from Los Angeles and Italy. Instagram: ampskate

React RPG | *JavaScript, React, React Native, Redux, HTML/CSS* Sep. 2018 – May 2019
